

AMG CAPITAL MARKETS DAY

AMG's Management Board invites you to its Capital Markets Day, which will be held at Industriepark Höchst, Frankfurt am Main, on March, 30, 2023 at 09:30 am CEST.

Materials Science for a Sustainable Planet

AMG is a global critical materials company at the forefront of CO₂ reduction trends. As the leading European lithium producer, AMG is building an integrated lithium value chain, from mining to processing to high purity refining. AMG Lithium enjoys a significant first mover advantage as the first European producer of battery-grade lithium hydroxide for green mobility. With its commercial industrial battery Hybrid Energy Storage System ("HESS"), AMG takes the next step: the ecosystem combines Lithium-Ion and Vanadium Redox Flow batteries with artificial intelligence routines to maximize the efficiency, safety and lifetime of industrial-scale batteries.

AMG N.V. Management

Dr. Heinz Schimmelbusch – CEO
Mr. Eric Jackson – COO
Mr. Jackson Dunckel – CFO
