In addition, the Intermediaries are requested to include the full address details of the relevant ultimate beneficial holders in order to be able to verify the shareholding on the Record Date in an efficient manner.

### **As a shareholder, how do you log in to the EVO platform?**

#### **Which other parties use the EVO platform?**

Apart from shareholders, other parties that use the platform are agents, intermediaries, voting offices/vote collectors and issuing institutions.

#### **Is AMG required to facilitate electronic voting by law?**

No, European and Dutch legislation does not require listed companies to facilitate electronic voting. AMG believes it is important to encourage dialogue with shareholders by, among other things, involving them as much as possible in decision-making during Annual General Meetings. The EVO platform supports this wish, not least because the platform makes it easier for shareholders to register for meetings, to issue proxies to third parties or to vote in advance.

#### **What should you do as a shareholder if you cannot or do not wish to vote via the EVO platform?**

Shareholders who do not attend the meeting, but who wish to be involved in decision-making, or shareholders who would prefer to vote via the existing process, can use the voting form that is available on the AMG corporate website ([www.AMG-nv.com](http://www.AMG-nv.com)). The registration and voting forms should be received in time at the address specified on the forms at the AMG corporate website.
